IRMSA Endorsement Opportunity for Training Providers

The Institute of Risk Management South Africa (IRMSA) is from time to time approached by training providers and tertiary educational bodies to endorse Education and Training (E&T) courses/interventions. In addition, IRMSA will from time to time offer training courses to its members which will be conducted by external training providers. In order to ensure that members' interests are protected, it is necessary to provide clear guidelines for a consistent and a transparent process for quality assurance of education and training material/interventions. All education and training interventions must adhere to the Institute's endorsement policy

This unique opportunity exists for IRMSA Corporate Members to submit courses and or interventions to the E&T Committee for endorsement. If you wish to take advantage of this unique opportunity, please see the detailed Endorsement Policy.
