Sponsored and endorsed by the  
Institute of Risk Management  
South Africa

The Institute of Risk Management South Africa, in partnership with accredited training providers, is presenting a unique 2 day training programme designed to understand and work with key concepts in Enterprise Risk Management (ERM).

#### Concepts include

- The definition and process of risk management
- ERM in the context of corporate governance
- Organisational risk management structures
- Risk appetite
- Probability of risk and severity of impact
- Risk prioritisation
- Risk management strategies
- Maintaining an ERM structure and programme
- Risk integration into the organization

#### Who should attend?

The programme will be of particular benefit to

1. Senior and mid-level managers who need to grasp the concepts
2. Managers with accountability for risk who need to understand the process and implementation of ERM
3. Risk professionals in specialised disciplines who wish to broaden their level of practical understanding and enhance their ability to implement ERM

The ERM content has been developed and endorsed by the Institute and will be presented in a mixture of formal learning and an interactive experiential case study. Training providers have been selected and accredited by the Institute on their risk management competence and training experience. Certificates of Successful Completion will be issued by the Institute to all trainees who satisfactorily complete the course.

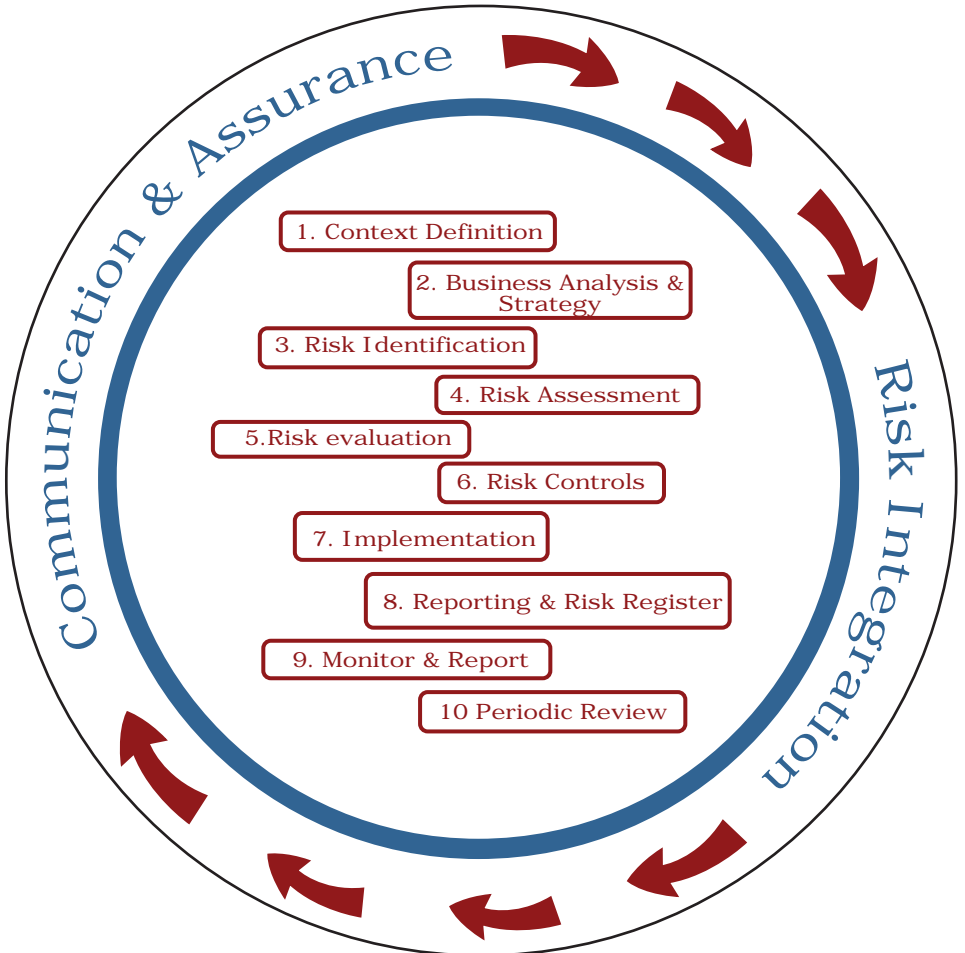

More detailed course information, registration and pricing details can be obtained from the accredited providers listed on the rear panel or by visiting our website

SOUTH AFRICA

# THE IRMSA ENTERPRISE RISK MANAGEMENT TRAINING MODEL

## ABOUT THE INSTITUTE

Operating from permanent offices in Johannesburg with a full time staff, the Institute of Risk Management is a registered non-profit organisation representing the risk management discipline in South Africa.

Effective risk management integrated across the enterprise was not only mandated in the King II report on corporate governance but is the cornerstone to building a robust and successful business strategy, irrespective of the size of the organization.

The Institute has embodied the essence of this principle in delivering a range of membership benefits including

- a comprehensive code of practice aligned to King II with international benchmarks
- niche-topic focused workshops and networking briefings
- a comprehensive website and electronic library
- a legal brief issued fortnightly highlighting legal issues relevant to risk professionals
- research projects

Membership fees, accreditation criteria and membership applications can be found in the IRMSA website or contact our offices.
