THE INSTITUTE OF RISK MANAGEMENT SOUTH AFRICA

A Non-for-Profit Organisation incorporated in terms of the Non-Profit Organisations Act 71 of 1997 and recognised as a professional body for Risk Management Professionals in South Africa by the South African Qualifications Authority ("IRMSA")

What is certification?

Certification is the provision by IRMSA of written assurance that an individual in question, meets specific requirements. It is the formal attestation or confirmation of certain characteristics of that person. To become certified, you need to be an Associate Member.

Below are the requirements for becoming an Associate Member:

- Relevant qualification (NQF level 6) + 5 years risk management experience.
- Risk qualification (NQF level 6) + 3 years risk management experience.
- No formal tertiary qualification + 10 years risk management experience.

Once you become an Associate member you can follow a professional career path by writing the IRMSA Board Exams to obtain the Certified Risk Management Practitioner (CRM Prac) and Certified Risk Management Professional (CRM Prof) designations.

Below are the requirements to qualify for the CRM Prof designation:

- No formal tertiary qualification + 15 years risk management experience.
- Relevant qualification NQF 8 + 10 years risk management experience.
- Risk Qualification (NQF level 8) + 5 years risk management experience.

Management Practitioner (CRM Prac):

Specialised background and expertise in risk management. The certification validates that the individual possesses a foundation level knowledge and experience to implement and manage an organisation's risk management programme under supervision.

Certified Risk Management Professional (CRM Prof):

The CRM Prof Designation is a strategic level certification designed for individuals who have a specialised background in risk management. The certification validates that the individual possesses a comprehensive level of technical knowledge and experience required to assess, implement, and manage an organisation's risk management programme without supervision.

What do risk management professionals gain from completing this IRMSA Certification?:

- Career enhancement and development
- Professional status- Independent recognition of professional status by South African Qualifications Authority (SAQA)
- Recognition as an expert in the field
- Credibility and competitive advantage setting you apart from your peers
- Domestic and Global opportunities

Certified Risk:

The CRM Prac Designation is designed for individuals who seek to gain.

Here are some organisations where our CRM PRAC and PROFS are employed:

What do employers gain by motivating their risk management professionals to take the certification?

- Demonstrates that risk management is important and is taken seriously in your organisation.
- Lends credibility to your organisation.
- Provides confidence that your risk management teams are appropriately qualified, experienced and competent.

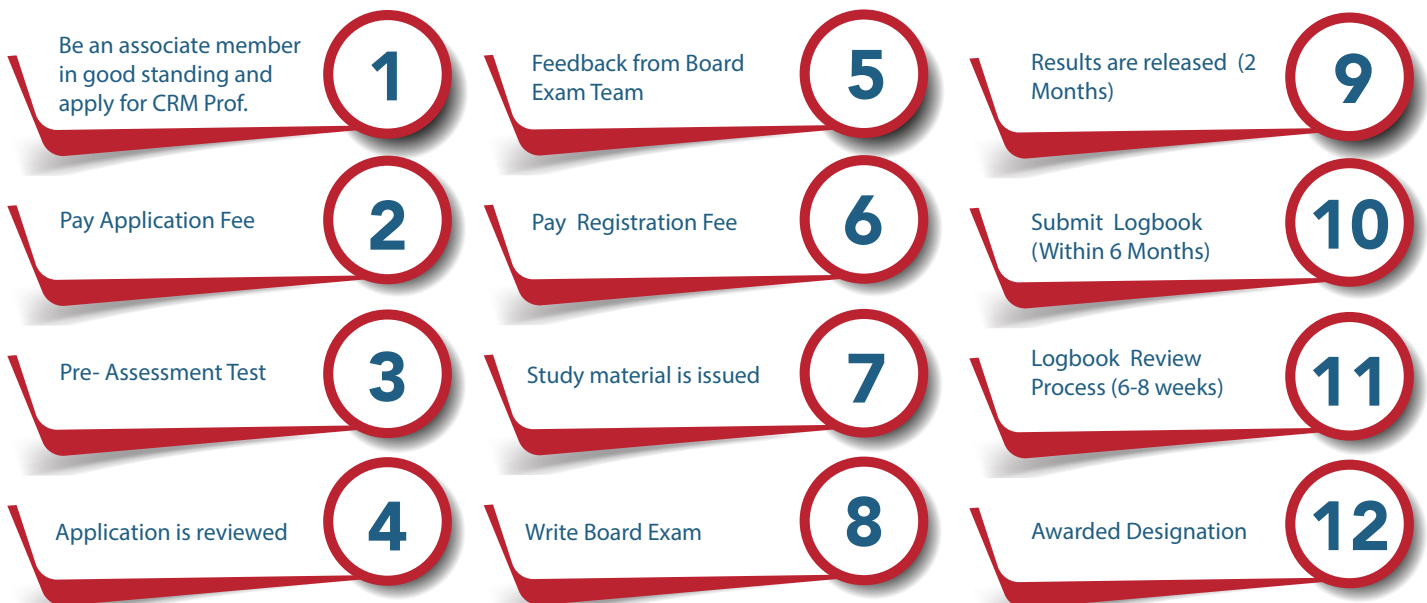

Ask yourself the following important questions before applying:

- Do I meet at least 70% of the logbook requirements?
- Do I meet the number of years required in Risk Management?
- Do I have the relevant qualification or requisite years of experience to get the CRM Prof Designation?
- Am I an IRMSA Associate member?

Board Exam Date: September
